

## SNOWFLAKE CUSHION COVER

- Print the snow flake template (next page) on your printer. The template is approximately 7.5" square. Use a photocopier to increase or decrease the size as desired.
- Lay the paper template on top of a piece of white felt. Using a craft knife, cut on top of the lines of the snowflake. Lift the paper off the felt and re-cut any lines as necessary if you missed any spots.
- Cut fabric for cushion cover using your favourite pattern.
- Sew the felt snowflake to the cushion top, stitching about 1/8" from all edges.
- Finish cushion cover as normal.
